

## BIG DAY FOR HOGS

Heaviest Run in Weeks and Superior Quality.

BULK \$3.50 AT \$3.60

Cattle Steady With a Very Fair Mixed Supply.

Yesterday was the banner day in many weeks for hogs on the local market. Not only was the volume of receipts far ahead of anything in the midsummer lull, but the quality was exceptionally extra, and the demand also just strong that all the offerings were readily absorbed and everything cleared for at a slight decline from the average of Monday, which falling off, however, was entirely in sympathy with and subject to the prevailing tone of all other live stock centers. Very early yesterday the indications were for a very busy day and active market. It seemed to be felt rather than explained, and the outcome was early forwardness showed that this was not at all misjudged. The market quotation was about 5 cents lower, the average quality and prices paid considered. Very soon after the opening, the wagon train commenced and at once showed signs of proving the heaviest day in a long time in this branch of the hog business. The entire day's trade in this division was away beyond anything in several weeks, a total of 241 hogs in bunches running from just a few to 12 and 15 coming in so thick that they had to wait their turn for inspection. The quality of the local trade was also an item worthy of some comment. The hogs were nearly all ways of a very good grade, better than have been received on the market in some time back. All, whether in small or large lots were at once sold, the Dold company taking practically all of them. The car stuff commenced rolling in at an early hour after noon, and there was no let up for several hours, lasting until after dark. Every road coming into Wichita, and every stock train carried more or less hog shipments billed to this market. The heavy and of the run came in late, after a market had been established, and enough sales made to indicate both the tone of the trade and the balance between supply and demand. Again the Dold plant demonstrated their buying capacity, and long after it was supposed that all stuff for the day was in, they continued promptly to take all late offerings, and at the best and strongest prices practicable with the ruling conditions everywhere, and the closes on other markets. Be it said for the quality yesterday, of hogs in both branches, and especially in the car trade, that it was by far the very best in many weeks. The average weight is some indication of it, it being 25 pounds, three pounds heavier than on Monday, which last named day was the heaviest in the way, in several weeks, where enough hogs came in to make a fair market. There were many cars of prime extra fat hogs of well fed and finished stock, showing up not only a very good weight, but evenly running smooth butchered hogs. It was in all the most attractive and fancy day's exhibit of hogs this market has seen since the spring fresh ended many weeks ago. There were very few cars sorted at all, and in most cases, the cut-outs brought about the same stiff price as the big end of the lot. There was likewise a very small percentage of light weight hogs, and these found ready sale also on the local market. The heaviest lot was the lightest lot of car hogs and there were 100 head in this car. The heaviest lot showed up 235 pounds, and was the top winner for the day, selling without any dock. In these were among the best hogs required at the yards in two seasons, and brought more than they could have hoped for on any other market. The packers and coarse hogs were almost unknown yesterday, most of the offerings being even and plump rounded out hogs, the very grade this market is most in demand of. There were two top loads at \$5.00, one straight, three at the next top price, 24 cents under this, and 4 at \$4.75. The bulk of the bulk included three cars and far-named bunches of wagon hogs. In all there were 15 cars weighed up, all that came in. All received the same firm bidding, the late arrivals at an advance to 10 cents. All were fair to good hogs, many a little extra, and all sold well considering the declining markets in both live stock and provisions.

The cattle market yesterday was fairly quiet as steady. There was a less strong demand for some grades, and for a time some very good stuff went begging. Most of the best of the sale stock was finally disposed of, at a lower price than at steady prices. Some of the usual buyers were not on the market, but the bulk of the offerings went before the close. Cows and heifers were the principal line of cattle offered, with a very good sprinkling of stockers and feeders. Late last night eight cars of cattle came in, these were yarded and will be transferred early today. All the receipts yesterday were taken care of, and today is expected to show up equally strong.

## SHIPPERS AND NOTES

John Batell of Cunningham was on the market with one of the prize-winners, and they were certainly very fine prime fat butcher hogs. In weight and pump size they were among the few rare lots that have come to this market in many weeks, and sold straight for the top price of the day.

J. W. Norris of Oxford was another top holder, his fine load of heavy butcher hogs also taking the \$5.00 mark, and selling without dock.

J. W. Workman of Geneseo was in with a fine load of heavies of even run good enough to come within 2 1/2 cents of the top.

Charles & Funk of Nickerson were late arrivals Monday night, their straight load of extra heavies receiving the top of the bulk on the early market.

John C. Rose of Hill was in with a car of good medium hogs which sold for the top of the bulk.

Steiner & Blair of Lyons were in with a mixed car of fair to good hogs, arriving late. The big end sold well up to \$4.00, the lighter bunch going to Bennett at the same point as the heavier.

Charles Granville, of the old-time shipping firm of Paugh & Granville, of Sedgewick, was a late comer with a car load of medium heavy hogs which sold to Dold at bulk prices.

L. B. McCrackin of Derby was in with a car of medium weight hogs, which sold early among the car transfers at a high bulk figure.

Abell & Cowherd, extensive summer country stock dealers, were on the market with a mixed car of hogs and cattle, bulked from Rome. Mr. W. T. Cowherd was in charge and he reports very few hogs in his section, either fat hogs or stockers.

The cattle, he says, are doing well. He sold out all his stock, the hogs being a fine lot of medium heavy stuff, selling without dock.

Henry Steinkirchner of Newton was down with a car of heavy hogs of well finished stock, selling early to Dold at a high bulk price.

The Scott & Pack was in with a mixed load of hogs and cattle. The hogs were of heavy weight and sold at once to Bennett.

High Griffith of Belle Plaine was another summer country shipper in with a car of mixed hogs, the largest and heaviest of medium heavy stock and selling to Dold, Bennett taking the lighter remainder.

D. J. Hutchinson, one of the old stand-bys of this market, was a late arrival with a car of extra heavy proportioned hogs, selling towards the close at a fair price. He has just returned from the soldiers' reunion at Cincinnati, and gives glowing accounts of crops all along the line. He says there are no signs of hogs in his vicinity, many of them being now fed on corn, and he predicts heavy shipments to this market all next season.

D. W. Munk of Haven was at the yards with a car of very good medium hogs which sold toward the close to Dold at top bulk prices.

Wm. Astell & Son, another well-known Haven shipping firm, were late comers with a car of light hogs, but which sold the last load to be weighed, at a stiff price.

The roads along the hauling yesterday were as follows: Santa Fe, 7; Missouri Pacific, 4; Frisco, 1; and Rock Island, 1. The daily comparisons are as follows: Yesterday, tops, \$5.00; bulk, \$3.50; average weight, 24; receipts, 1,300. For Monday, tops, \$4.85; bulk, \$3.40; average weight, 24; receipts, 450. For the same day last week, tops, \$4.50; bulk, \$3.20; average weight, 23; receipts, 350.

Other markets yesterday were as follows: Chicago looked for 2400 hogs, and received 2600, with 1500 left over, and the market was early given as a shade higher for best grades, others steady, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower. Late trade, steady, but a shade lower." St. Louis received 700 hogs, against 500 the day previous, and the market was 1 cent lower. Provisions were early weak on yellow fever rumors, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower. Late trade, steady, but a shade lower." St. Louis received 700 hogs, against 500 the day previous, and the market was 1 cent lower. Provisions were early weak on yellow fever rumors, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower. Late trade, steady, but a shade lower." St. Louis received 700 hogs, against 500 the day previous, and the market was 1 cent lower. Provisions were early weak on yellow fever rumors, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower. Late trade, steady, but a shade lower." St. Louis received 700 hogs, against 500 the day previous, and the market was 1 cent lower. Provisions were early weak on yellow fever rumors, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower. Late trade, steady, but a shade lower." St. Louis received 700 hogs, against 500 the day previous, and the market was 1 cent lower. Provisions were early weak on yellow fever rumors, and a close market. The receipts for Monday were 2600, and for today they are estimated at 2500. Kansas City received 1000 hogs, against 400 the day before, and the market was quoted on the close as follows: "Lighter active, steady for best grades, but a shade lower.
